

APRIL 2014

FINANCIAL LITERACY MONTH FINANCIALLITERACYMONTH.ORG

Start a "Rainy-day" Fund

Save, save, save away. You'll spend some other day.

This month is a great opportunity to start a "rainy-day" fund. Many experts recommend having about six months' worth of expenses in a savings account to cover sudden unemployment or other emergencies.

Consider a \$50 monthly automatic deduction from your paycheck or checking account to a savings account.

Of course it will take some time to build up to 6 months of savings, but even if you start with a small amount, it can make a difference if you find yourself facing an unexpected expense.

Be ready for those rainy days!

We have other "savings" tips on our blog:
