

MARCH 2014

Prepare for Tax Season
Get more, save more!

A quick way to immediately start saving before your tax refund burns a hole in your pocket is to have your tax refund automatically put into a savings bond. Visit the IRS website for information on how to set that up.

You can also use this time to see what other tax credits you might be eligible for. For example, learn about the Federal Saver's Tax Credit and Earned Income Tax Credit to see if you qualify.

If you already filed, and did not have your refund automatically saved, you should still consider saving it, rather than spending it!

Read our [blog on the EITC](http://www.wiserwomen.org/blog/?cat=61) for more information on how to save during tax season:
