National Resource Center on Women and Retirement Planning

The Center is a "one-stop" gateway for retirement planning. Since 1998, the [Administration on Aging](#) has awarded a competitive grant to the Women's Institute for a Secure Retirement (WISER) for the design, execution and maintenance of the National Resource Center on Women and Retirement Planning. [Download a fact sheet](#) about the resource center.

The Center's overriding goal is to assist the Aging Network in educating women of all ages about planning for their future financial, health and long-term care needs.

The core of the Center's work is the direct impact we have on women in communities across the country. Every year, WISER reaches tens of thousands of women with our workshops, trainings, print and electronic materials, and website. We accomplish this work through strategic partnerships.
